

THE SUN!

S

un is round and lives right up in space, it gives you lots of delightful heat.

U

nder the bright yellow sun are lots of lovely children eating yellow ice-cream.

N

ever the sun is in winter always in summer.

G

olden burning sun you are burning up there to keep our energy up.

L

ovely sun I can play with you all night so don't give me a fright.

A

ll the time when you are out so will the sun.

S

uper dooper scorching sun is eating my mum

S

untan makes your skin go brown and it gives us a giggling frown.

E

veryone is happy because the sun is here.

S

o sun come back again.
